

Enterprise Work Management Platform

1. Project Overview

The Enterprise Work Management Platform is a web application that helps organizations manage projects, tasks, teams, and daily work activities in one place.

2. Problem Statement

Many organizations use different tools for communication, task tracking, and project management. This creates confusion and reduces productivity. The platform provides a centralized solution to manage all work efficiently.

3. Objectives

- Manage projects and tasks
- Improve team collaboration
- Track work progress
- Generate reports
- Provide secure access for users

4. User Roles

- Employee
- Team Leader
- Project Manager
- Administrator

5. Technology Stack

Frontend: HTML, CSS, Bootstrap, JavaScript/React

Backend: Node.js, Express.js

Database: MySQL

Tools: Git, GitHub, VS Code, Postman

6. Core Modules

- Authentication Module
- User Management Module
- Project Management Module
- Task Management Module
- Team Collaboration Module
- Reporting Module

7. Module Description

Authentication handles registration and login. User Management stores user details. Project Management creates and manages projects. Task Management tracks tasks and deadlines. Collaboration enables discussions and file sharing. Reporting generates project reports.

8. Database Design

- Users
- Projects
- Tasks
- Teams
- Reports

9. System Workflow

User Registration → Login → Create Project → Create Tasks → Assign Tasks → Track Progress
→ Generate Reports

10. Implementation Plan

Phase 1: Authentication

Phase 2: User Management

Phase 3: Project Management

Phase 4: Task Management

Phase 5: Collaboration

Phase 6: Reports

Phase 7: Testing and Deployment

11. Security Features

- User Authentication
- Encrypted Passwords
- Role-Based Access Control
- Secure Database Connection

12. Future Enhancements

- Mobile Application
- AI-based Task Suggestions
- Real-Time Notifications
- Advanced Analytics

13. Expected Benefits

- Better project tracking
- Improved teamwork
- Increased productivity
- Centralized work management

14. Conclusion

The Enterprise Work Management Platform helps organizations manage projects, tasks, and teams efficiently through a simple and centralized system.
