

Internship Management & Mentorship Portal

MINIMUM VIABLE PRODUCT (MVP) SPECIFICATION

| PROJECT OVERVIEW

The Internship Management Platform is a centralized collaboration hub engineered for organizations, universities, and startups to seamlessly guide interns from onboarding to final certification. It streamlines coordination between program coordinators, technical mentors, and active interns.

| MAIN OBJECTIVE

The main objective of this platform is to provide a structured environment for managing internship milestones, tracking daily tasks, evaluating progress, and facilitating direct mentor guidance.

| USER ROLES

The targeted MVP permissions system includes:

- **Program Managers / HR Coordinators:** Global program tracking, setup of batches, and final certificate verification.
- **Mentors / Team Leads:** Daily task assignment, performance evaluation, feedback submission, and milestone tracking.
- **Interns:** Accessing assignment logs, reporting task completion, and viewing feedback pipelines.

| CORE MVP FEATURES

Intern Dashboard & Onboarding

Provides interns with a dedicated timeline view outlining assigned tasks, upcoming milestones, attendance status, and program announcements.

Mentor Dashboard & Monitoring

Allows technical mentors and team leads to view assigned interns, monitor task status, and review submitted deliverables.

Task Management

Supports standard task lifecycle management where coordinators can create tasks, set priorities, assign deadlines, and monitor completion metrics via a Kanban board.

Progress Tracking

Enables interns to log daily activity updates and submit weekly progress reports for formal mentor evaluation.

Communication Hub

Integrates real-time direct messaging, group discussion rooms, and file exchanges to foster immediate technical guidance and teamwork.

Certification Management

Automates the validation and generation of downloadable digital internship completion certificates upon successful review.

| TECHNOLOGY STACK

- **Frontend:** React.js, Next.js, TypeScript
- **Backend:** Node.js, Express.js
- **Database:** PostgreSQL / MongoDB
- **Additional Tools:** Socket.IO (Real-time Chat), JWT (Authentication), AWS S3 Container Storage

| CONCLUSION

The Internship Portal MVP optimizes program management by ensuring interns receive transparent guidance, tasks are tracked reliably, and program completion criteria are uniformly met.
